get_data	<i>Query random user data from the Random User Generator API</i>
----------	--

Description

Query random user data from the Random User Generator API

Usage

```
get_data(n = 1, seed = NULL)
```

Arguments

n	Number of users to fetch, up to 5,000 generated users in one request. Defaults to 1
seed	A character string used to generate the same set of users. Defaults to NULL.

Value

A tibble that contains random user data

Examples

```
get_data(n = 10, seed = "1990")
```
